Checking the quality of care - National Clinical Audits

Priory Surgery contributes to national clinical audits so that healthcare can be checked and reviewed.

- Information from medical records can help doctors and other healthcare workers measure and check the quality of care which is provided to you
- The results of the checks or audits can show where hospitals are doing well and where they need to improve
- The results of the checks or audits are used to recommend improvements to patient care
- Data are sent to NHS Digital, a national body with legal responsibilities to collect data
- The data will include information about you, such as your NHS Number and date of birth and information about your health which is recorded in coded form - for example the code for diabetes or high blood pressure
- We will only share your information for national clinical audits or checking purposes when the law allows
- For more information about national clinical audits see the Healthcare Quality Improvements Partnership website: <https://www.hqip.org.uk/> or phone 020 7997 7370.
- You have the right to object to your identifiable information being shared for national clinical audits. Please contact the Practice IG Lead or Practice Manager if you wish to object

We are required by law to provide you with the following information about how we handle your information
